**Subject:** RE: PFESA-BP2 Manuscript Comments

As part of the previous review, I had pointed out several items in the fact sheet/impact statement that also need to be edited/corrected. I did not see a revised fact sheet/impact statement in the revised STICS record.

To save time, I have attached my track change comments/suggestions to the fact sheet to this note. Please revise accordingly and return to me by email. I will then initiate the advance notification and upload the revised fact sheet into the STICS record.

Ron

**Subject:** PFESA-BP2 Manuscript Comments

Hi Ron,

I believe I have addressed all of your comments on the PFESA-BP2 manuscript, as well as comments from Chris Lau and John Rogers. I am getting ready to send the new version to Drew to be resubmitted to STICS.

I wanted to let you know I did not the author affiliation. The author affiliation is the location of the person when they completed the work. I worked for ORISE when I did this work so I will leave the contact information for myself to reflect this requirement. I am currently an unemployed female scientist.

Thanks,  
Johnsie
